

# Logging In/Out – Users Guide

---

## Android AEGEA Mobile Application

This Users Guide will take you through the steps of getting logged in and logged out with an account for the Android AEGEA mobile application.

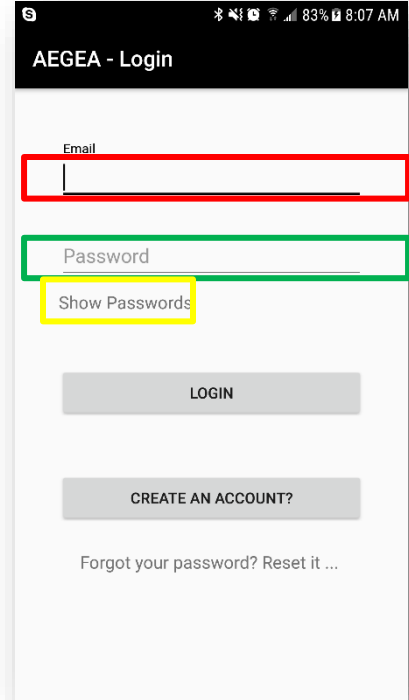

# Getting Logged In

### Getting Logged In – Required Fields

To log into the Android AEGEA mobile application, enter your Email Address (Username), highlighted by the red box in the image, and Password, highlighted by the green box in the image, used during registration.

If needed, use the Show Password, indicated by the yellow box to make the password text clear for reading.

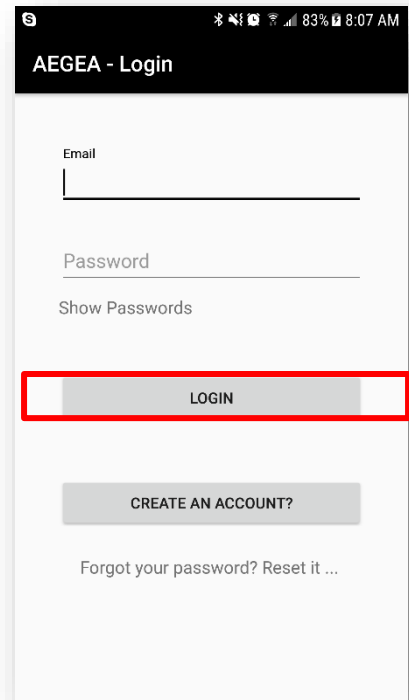

### Getting Logged In – Login Processing

Once your Email Address (Username) and Password are entered, select the Login button, highlighted by the red box in the image.

If your Email Address (Username) is not found, you will receive an error message.

If your Password is not the same Password used at registration, you will receive an error message.

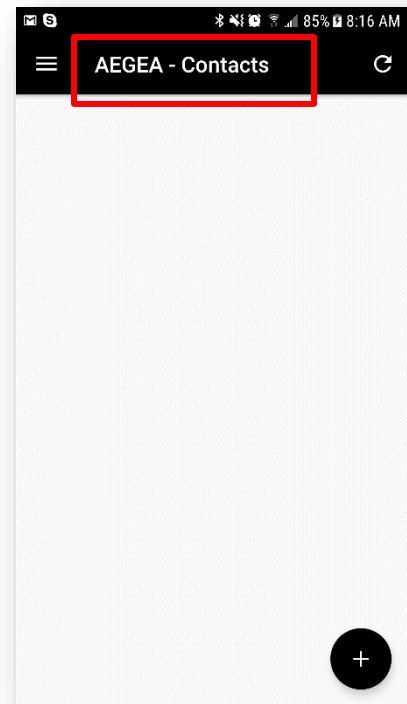

If you do not provide both an Email Address and Password, you will receive an error message.

### *Getting Logged In – Login Complete*

When the login process is complete, you will be brought into the application and placed on the Contacts screen, highlighted by the red box in the image.

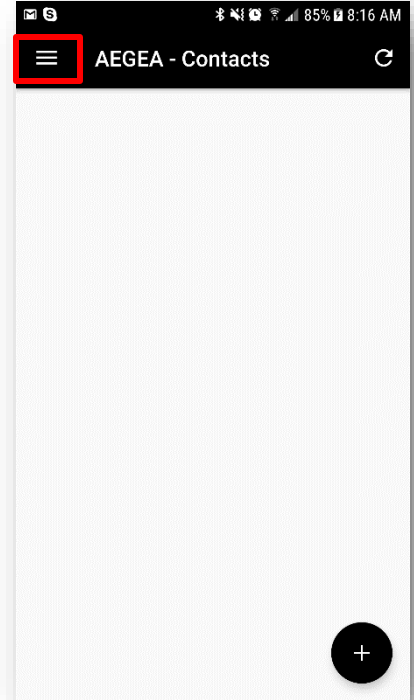

# Getting Logged Out

### Getting Logged Out – Account Screen

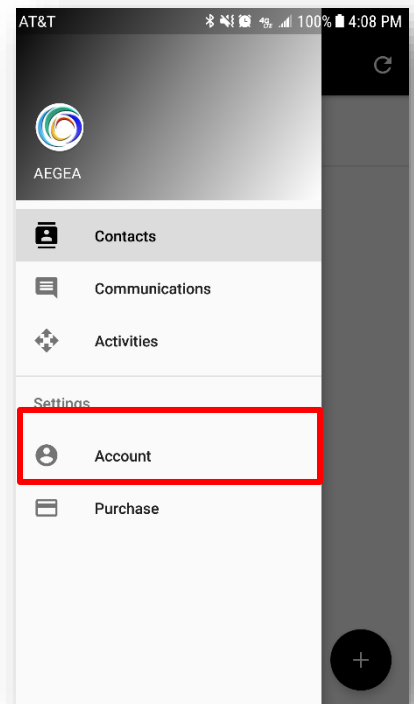

The only way to ensure that you are logged out of the Android AEGEA mobile application is to use the Account screen, Logout button.

To access the Account screen, select the menu option in the upper left corner of the application, highlighted by the red box in the image, this will display the application menu.

Once the application menu is displayed, you will select the Account menu option, highlighted by the red box in the image.

This will navigate you to the account screen.

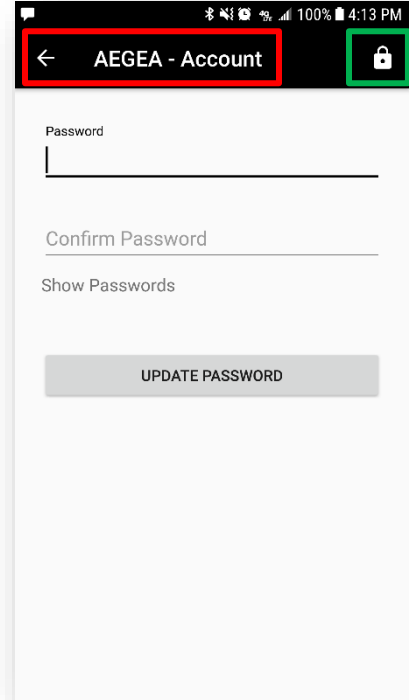

### Getting Logged Out – Selecting Logout

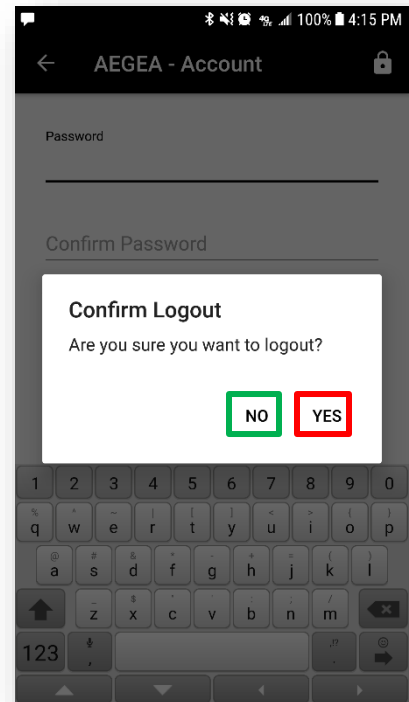

You will know that you are on the Account screen by the title bar, highlighted by the red box in the image.

Select the Logout image in the upper right corner, highlighted by the green box in the image.

Please note that closing the application, by pressing the Home button, will not log you out of the application.

After you select the Logout image, you will be prompted to confirm the Logout process. Select the Yes button to continue, highlighted by the red box in the image, or select the No button to cancel the Logout process, highlighted by the green box in the image.

### *Getting Logged Out – Logout Complete*

The Log Out process is complete when you see the Login screen.
